

# OBJECTIF LUNE

## Quality Assurance Specialist

*To lighten the text, the masculine prevails but is used without regard to gender.*

Objectif Lune is seeking for a Software Quality Assurance Specialist to join the existing team to implement the software test plans, participate in the creation of automated tests and to the setup of regression environments.

### Main Responsibilities

- Execute software quality assurance tests and analyze results.
- Assist the architect in the creation of test components.
- Use the automated test tools.
- Participate in the definition of plans and strategies.
- Cooperate with Software Developers to duplicate and solve quality issues.
- Validate bugs; take care of their documentation, update and follow-up.

### Qualifications

- College degree in Computer science or equivalent relevant experience.
- 2 years of experience in software quality assurance.

### Technical Requirements

- Knowledge of software quality control and quality assurance techniques
- Knowledge of script programming.
- Operational knowledge of computer equipment
- Asset: knowledge of the software development cycle
- Asset: understanding of production printers

### Profile

- Fluent both in French and English
- High adaptability and desire to learn continuously
- Strong analytical skills and ability to synthesize
- Attention to details, thoroughness and structure
- Patience and perseverance
- Communication and interpersonal skills
- Ability to solve problems quickly
- Team spirit

### Location and work schedule

- Montréal, Qc
- Flexible working hours, from Monday to Friday

### Compensation

- Based on salary scales
- Wide range of social benefits

### IMPORTANT - Before you apply

The applicant MUST attach to his curriculum vitae a cover letter, in which he will avoid standard wording suggested by job application writing assistants, and in which he will address at least the following questions:

- Why are you interested in this job?
- What should we know about you?
- What are your salary expectations?

The applicant may of course also deal with any other relevant topics. The cover letter is a preliminary test that will allow us to determine if the applicant is able to comply with some specific requirements. It can be written in French or in English.

**If you would like to apply, please send your cover letter and curriculum vitae at [hr@ca.objectiflune.com](mailto:hr@ca.objectiflune.com).**

Please note that only successful candidates will be contacted. There is no need to call.
