BREAK FREE FROM EXPENSIVE PRE-PRINTED PAPER

Move your pre-printed paper supply to the virtual world and save money

THE REALITY OF PRE-PRINTED PAPER SUPPLY

- Pre-printed paper is expensive
- Stock must be inventoried and managed
- Printer drivers have to be installed and updated regularly
- Printer trays often have to be reconfigured
- Unknown staff hours are spent manually selecting and feeding paper trays
- Productivity is less than optimal
- Pre-printed paper cannot be modified and quickly becomes obsolete
- Pre-printed supply wastage becomes a line item in your yearly budget
- Pre-printed paper is not compliant with environmental policies

THE SOLUTION

- Convert your pre-printed paper supply in PDF files;
- Host them in a centralized location;
- Open the document you want to print;
- From the PlanetPress Suite printer driver, select the virtual stationery;
- Print!

BRINGING VALUE TO YOUR ENTIRE ORGANIZATION

Finance Executives

- Reduce labor costs and production turnaround
- Slash document processing costs

Process Owners

- Increase productivity and profitability by improving processes
- Reduce production delays, doing more in less time

Marketing Managers

- Preserve corporate brand integrity
- Quickly implement and roll-out changes

IT Professionals

- Make no change to existing systems
- Reduce support for driver configuration and tray selection troubleshooting

THE BENEFITS

- Eliminate pre-printed paper supply ordering, stocking and maintenance
- Reduce waste
- Cut your printing costs
- Improve efficiency
- Eliminate errors
- Eliminate obsolete documents
- Print from any application and to any printer!
- Make no changes to your system in place
- Gain flexibility to make changes and update documents
- Instantly roll-out document updates with no downtime

THE POSSIBILITIES

- Add barcodes or OMR/OCR marks
- Insert conditional graphics or text
- Add inserts
- Generate mail sort and postal savings
- Automate archiving
- Distribute via email or fax
