

OBJECTIF LUNE

JOB OFFER

Back-end Web Developer

To lighten the text, the masculine prevails but is used without regard to gender.

Objectif Lune is seeking for an imaginative and rigorous Web enthusiast who will actively participate in the development and maintenance of the company's Web sites, applications and processes.

You like puzzles? You don't want to sink into the routine? Carrying out a wide variety of projects that require you to learn continuously sounds stimulating? Joining a multi-skilled team where you can make a real difference is appealing? This job may be for you!

OUR TECHNOLOGY PLATFORM

- C# 4.5 / ASP.NET MVC 5+ / Entity Framework 6 / Web API
- VB.net / Web Forms (legacy)
- Visual Studio
- MS SQL Server
- IIS
- HTML / CSS / LESS
- jQuery, Bootstrap, JavaScript
- Asset: Knowledge of the MS Dynamics CRM SDK
- Asset: Knowledge of Azure

WHAT YOU WILL BE DOING

- Participate in all development phases (design, coding, quality control, testing and deployment) of .NET MVC applications for our public sites/portals and internal processes.
- Integrate the HTML/CSS Front-end developed by the Web Integrators in the MVC projects.
- Develop C# plug-ins using the MS Dynamic 365 CRM SDK to integrate our business processes into our ERP.
- Provide managers with time estimates for project completion.
- Gather requirements to complete the specifications provided by the analysts, when necessary.
- Maintain, update and optimize existing sites.
- Participate in the continuous improvement of development methods and processes.
- Stay abreast of emerging trends in Web development and apply best practices.

YOUR GREAT QUALITIES

- We work in French but most of the communications with our international colleagues are in English. Therefore, you are fluent in both languages.
- You really care about the user experience.
- You are addicted to Web technologies and always want to know more.
- You demonstrate strong analytical skills that enable you to find intelligent and innovative solutions.
- You are rigorous in your coding, testing and documentation activities.
- You are detail-oriented and capable of a high level of accuracy.
- Tight deadlines stimulate you; you are autonomous and know how to take initiatives.
- You are a real team player.
- You appreciate being trusted and given free rein.

YOUR EDUCATION AND EXPERIENCE

- College degree in Web programming, Computer science or equivalent experience
- 2 years of experience in Back-end Web development

LOCATION AND SCHEDULE

- Montréal (HoMa), QC
- Flexible schedule
