

### Customer Solutions Developer

To lighten the text, the masculine prevails but is used without regard to gender.

**Objectif Lune is seeking for a Solutions Developer passionate of new technologies wanting to match both his front and back-end development skills with his customer-oriented approach to become a power user of our software tool box and deliver innovative turnkey solutions to end users.**

**You like puzzles and enjoy getting out of your comfort zone? You want to play a key role in a team that performs small miracles every day (yes, really!)? You do not want to fall into the routine and want to carry out a wide variety of projects that require you to learn continuously? This job may be for you!**

#### Your technical profile

- Proficiency in JavaScript
- Good knowledge of Web technologies (HTML, CSS, jQuery)
- In depth knowledge of Microsoft Windows
- Good knowledge of networking
- Asset: knowledge of .NET, PHP, SQL, JSON, AJAX, Python

#### What you will be doing

- Develop turnkey solutions with Objectif Lune's software suite
- Determine the best approaches and methods to implement the solutions developed with our software
- Provide analysis, draft and review scopes of work
- Participate in the projects kick-off calls to validate the requirements and ensure a clear understanding of roles and expectations
- Gather all elements required for the success of the project
- Ensure regular follow-ups with the stakeholders
- Control the quality of the solutions before their go live
- Implement solutions on site and ensure proper operation
- Train users on the developed solutions.
- Suggest improvements to methods and processes, and promote the exchange of ideas and the knowledge transfer within the team

#### Your great qualities

- We work in French but most of the communications we are having with our national and international customers are in English. Therefore, you are fluent in both languages.
- Your approach is always customer and result oriented
- Your analytical and logical skills are recognized and effective
- You can quickly and intelligently solve problems
- You easily understand business needs
- You know how to adapt and want to discover new areas
- You are comfortable in a production environment with tight deadlines
- You appreciate people trusting you and giving you a lot of room
- You interact and communicate easily with others
- You are attentive to details, show thoroughness and are well organized
- You have a valid driver's license and passport.

#### Your education and experience

- College degree in Web programming, Computer science or equivalent experience
- 2 years of experience in a field related to web integration or web programming

#### Location and work schedule

- Montréal (HoMa), QC
- Flexible schedule
- Potential of short trips
