

## SOFTWARE DEVELOPER

Objectif Lune is seeking an experienced **Software Developer** who will join the global team to focus on the development, maintenance and testing of its software portfolio in an Agile environment. The developer actively participates in technological research and may be required to work simultaneously on various projects using different development environments.

Can you think outside the box? Are you comfortable with innovation? Do you want to make a real difference while always looking for new solutions and challenges? In short, do you like to perform small miracles? This job may be for you!

### YOUR TECHNICAL KNOWLEDGE

- Proficiency in Java RCP, Eclipse, JPA
- Good knowledge of JavaScript, TypeScript, Node.js and Node-RED
- Good knowledge of Containers, Docker, Kubernetes and Azure technologies
- Good knowledge of the Windows environment
- Assets: REST, COM, C ++, Delphi, Visual Studio Code
- Assets: MySQL, GIT, JIRA
- Assets: Agile, Scrum methodology

### YOUR KEY RESPONSIBILITIES

- Write, modify, integrate and document software code according to Objectif Lune standards
- Design, implement and document Frameworks and APIs used internally
- Develop and perform tests to detect errors in the code
- Develop specifications and design documents
- Perform research to ensure the technological advancement of products
- Provide expertise to other departments
- Promote knowledge-sharing within the team

### YOUR EDUCATION & EXPERIENCE

- Bachelor's degree in computer science or equivalent
- 5 years of experience in software development
- Analysis, Architecture and Design of Frameworks and APIs

### YOUR PROFILE

- We work in French but most of our communications with our international colleagues are in English. It is therefore required to be fluent in both languages.
- You are very disciplined in coding and testing activities
- Your analytical skills are recognized and allow you to imagine innovative and effective approaches
- You show great adaptability and willingness to learn continuously
- You interact and communicate easily with others
- You can quickly and efficiently solve problems
- You are attentive to detail, rigorous and organized
- You know how to manage several tasks simultaneously
- You are good at knowledge sharing, popularization and documentation
- You value confidence and freedom of action

### LOCATION & SCHEDULE

- Montréal (HoMa), QC | Telework in times of pandemic.
- Flexible schedule from Monday to Friday but influenced by projects and requests.
